

THE IMPACT

FIRST STEP FUNDING STORIES

LCSD Personalized Learning

The Lincoln Consolidated School District's Personalized Learning Program resulted in 81 professional certifications being awarded to 54 senior class students, which is half of the graduating class! Of those 54 students, 21 students also received multiple certifications. The certification courses include job skills training in fields such as Industrial Maintenance, Certified Nursing Assistants (CNA), and Personal Care Assistants (PCA). These advanced certifications allowed students to graduate from high school already qualified in high-demand jobs. Many students were able to start working immediately after receiving their certifications, which provides additional critical resources if they plan on pursuing higher education or other career opportunities.
